The North East State Foresters Association (NEFA) is the State Foresters of Maine, New Hampshire, Vermont, and New York cooperating with the US Forest Service State & Private Forestry on issues of common interest (see [www.nefainfo.org](http://www.nefainfo.org)).
Introduction

Consumers often look for ways to support the local economy by purchasing products that are grown or manufactured locally. In New Hampshire, the second most forested state in the nation, there are numerous opportunities to purchase lumber from local sawmills. These mills, of course, purchase their logs locally - supporting the forest landowners, loggers, foresters and truckers that are so important to the Granite State’s economy and environment.

Purchasing lumber that is grown and processed locally helps keep money in the local economy, reduces the fossil fuel use associated with long-distance transport of lumber, and supports the management of local forests and the many benefits they provide.

This publication is an attempt to provide consumers with information on where they can purchase lumber directly from sawmills – either at the mill itself or through a retail outlet affiliated with a NH sawmill. Of course, there may be other ways to purchase local lumber – either from lumber yards, big box retailers, or others that purchase local wood and make it available to NH customers.

Completeness of Data

This initial effort by the North East State Foresters Association (NEFA), [www.nefainfo.org](http://www.nefainfo.org), seeks to provide consumers information on where they can purchase local lumber directly from local sawmills.

NEFA recognizes that this information may be incomplete, and would welcome additional information or corrections, which will be incorporated into any future updates to this or similar publications.

If you know of sawmills in New Hampshire that sell directly to retail customers not listed in this publication (or if you have corrections to information in this publication), please provide as much of the following as possible:
